IAG DELIVERABLE: SUBMITTAL OF FINAL TECHNICAL MEMORANDUM NO. 10, REMEDIAL ACTION OBJECTIVES, OPERABLE UNIT NO. 1 - NMH-406-93

Enclosed for your review is the Final Technical Memorandum No. 10 (TM 10), Remedial Action Objectives for Operable Unit (OU) 1, the 881 Hillside. This document is an Interagency Agreement (IAG) deliverable and must be submitted to the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) before the draft Corrective Measures Study/Feasibility Study (CMS/FS) document. The EPA and CDH expect to receive this Final TM 10 on September 4, 1993. To meet this date, EG&G Rocky Flats, Inc. (EG&G) would like to receive Department of Energy (DOE) comments by August 27, 1993.

This Final TM 10 reflects the DOE comments received from Mel Roy on the applicable relevant and appropriate requirements (ARARs) section. Also incorporated are earlier regulatory agency comments concerning the groundwater ingestion scenario.

Please call C. B. Gee of Remediation Project Management at extension 8550 or D. M. Smith of Environmental Engineering and Technology at extension 8636 if there are questions.
